D Reinigung

Normale Seifenlauge oder milde, natürliche Spülmittel verwenden. Keine ätzenden, scheuernden, chlor- oder säurehaltige bzw. aktivsauerstoffhaltige Mittel verwenden, da diese das Material angreifen können. Mit Wasser nachspülen und mit einem weichen Tuch abtrocknen. WC-Sitz und Befestigungsteile (Scharniere) dürfen nicht mit Klosett Reinigungsmittel in Berührung kommen. Sitz und Deckel hochgeklappt lassen, solange sich stärkere Reinigungsmittel im WC-Becken befinden.

GB Cleaning

Use mild agents or soapy water for cleaning. Don't use chlorine based or other abrasive/ corrosive cleaners because the use of these products can damage the material. Rinse the seat with water and dry with a soft cloth. Avoid the use of WC cleaning agents on the seat and hinges, these can also damage the structure of the material. So, please make sure that seat and cover are in an upright position as long as harsh cleaning agents are in the bowl.
